Work Experience

House Job

Jinnah Postgraduate Medical Centre. (Year 2023 - 2024)

- **General Medicine ward-23 (MICU)**
General Medicine Experience: During my three month house job in the department of general medicine I worked on providing primary care services such as treatment of basic health problems, Monitoring and managing patient's overall health and wellbeing, prescribing medications and treatment for patients, assisting senior doctors, participating in daily rounds on inpatients with especially hepatic, pulmonary and neurological diseases, delivering comprehensive patient care through effective treatment plans and close monitoring, and managing as ward duty doctor and delivered comprehensive patient care through accurate diagnosis, effective treatment plans, and close monitoring, ensuring optimal patient outcomes in a busy medicine department.
- **Chest Medicine ward-42**
Chest medicine Experience. During my three month house job in chest medicine ward. I attended out patients and emergency department and dealt with all common respiratory emergencies under the guidance of Resident Medical Officer. And successfully assisted seniors during procedure undertaken in this department that includes chest intubations, Pleural biopsy, lung biopsy, pleural aspiration. My hands-on experience in a high-demand clinical setting has strengthened my ability to deliver patient-centered care and manage complex respiratory cases effectively.
- **General Surgery ward-26**
General Surgery Department Experience: During my three month house job I participated in providing pre-operative and post-operative care of general surgical patients, assisted senior doctors in various surgical procedures such as hernia repairs (umbilical, paraumbilical, inguinal) colorectal and open abdominal surgeries. Skilled in minor surgical procedures like incision and drainagelipoma/cyst removal. My responsibilities included pre-operative assessment and post-operative follow up care.
- **Urology ward-19**
During my three month house job I participated in providing pre-operative and post-operative care of Urology ward, assisted senior doctors in various surgical procedures such as PCNL, TURBT, DJ stenting, Nephrectomy, surveillance cystoscopy, Radical orchiectomy. My responsibilities included pre-operative assessment and post-operative follow up care.

NIKUD (Medical Officer)
