SMBBIT Hospital, Karachi.

Subject: Application for MCPS Training Position in Diagnostic Radiology

Respected Sir,

I hope this letter finds you well. My name is Tayaba, currently serving as a Medical Officer at PPHI Sindh, where I manage Paediatric Outpatient cases. My previous clinical posting at Indus Hospital Network (ICU) strengthened my emergency response and patient management abilities.

I am deeply motivated to pursue MCPS in Diagnostic Radiology, as it forms the foundation of accurate and evidence-based clinical decision-making. I believe that the structured training environment at SMBBIT will help me

develop strong diagnostic interpretation skills and become a competent radiology physician.

If given the opportunity, I assure you of my dedication, discipline, and commitment to continuous learning.

Thank you for your kind consideration.

Sincerely,

Tayaba
