PROFILE SUMMARY

Results-driven MBBS Doctor with over a year of hands-on experience as a House Officer at Jinnah Postgraduate Medical Centre, Karachi. Adept in providing comprehensive patient care across diverse medical and surgical specialties, including medicine, surgery, ENT, gynecology, and psychiatry. Demonstrated expertise in diagnosing and treating acute and chronic conditions, managing medical emergencies, and developing effective treatment plans. Skilled in patient assessment, medication management, and implementation of infection control protocols. Excellent communicator with a strong commitment to patient-centered care and collaborative teamwork. Proficient in MS Office Suite and experienced in utilizing healthcare management systems to enhance patient care and administrative efficiency.

WORK HISTORY

HOUSE OFFICER 2022 – 2023

Jinnah Postgraduate Medical Centre | Karachi

Departmental Responsibilities:

- **Medicine Ward:**
 - Managed the care of patients with both acute and chronic conditions, involving detailed diagnostic evaluations, formulation of treatment plans, and ongoing patient follow-up.
 - Conducted comprehensive physical examinations to assess patient health and identify potential issues.
- **Surgery Ward:**
 - Assisted in a variety of surgical procedures, including preparation and execution of pre-operative and post-operative care protocols.
 - Supported patient recovery through meticulous monitoring and management of post-surgical conditions.
- **ENT (Ear, Nose, and Throat):**
 - Provided medical care for patients with disorders related to the ear, nose, and throat, including performing minor surgical interventions as required.
- **Gynecology:**
 - Assisted in managing obstetric and gynecological cases, including prenatal care, labor, and deliveries, ensuring comprehensive care throughout the obstetric process.
- **Psychiatry:**
 - Assessed and managed patients with mental health conditions, offering both therapeutic interventions and psychiatric evaluations to address psychological needs effectively.

Procedural Responsibilities:

- **Emergency Response:**
 - Actively responded to medical emergencies with prompt and appropriate interventions to stabilize and manage patient conditions effectively.
- **Consultations and Communication:**
 - Provided clear and thorough consultations to patients, families, and healthcare professionals, ensuring a comprehensive understanding of diagnoses, treatment plans, and patient progress.
- **Infection Control:**
 - Implemented and adhered to rigorous infection control protocols to minimize the risk of disease transmission within the healthcare facility, maintaining a sterile and safe environment for patients and staff.
