PROFILE

Medical Officer with proven track record, I excel in healthcare management and clinical education. Known for mentoring junior staff and enhancing patient outcomes through evidence-based practices, my approach has significantly improved clinical quality processes, demonstrating a blend of expert knowledge and compassionate care.

WORK EXPERIENCE

House Officer – Jinnah Postgraduate Medical Centre (JPMC), Karachi
March 2016 – March 2017

Completed mandatory one-year house job rotating through Orthopedics, General Surgery, General Medicine, and Neurology.

Gained hands-on experience in patient management, ward rounds, clinical procedures, and emergency care.

Assisted in minor surgeries, performed suturing, cannulation, catheterization etc

Developed critical decision-making skills under supervision while managing high patient loads in a tertiary care hospital.

Maintained accurate patient records and coordinated with multidisciplinary teams for optimal patient outcomes.

Medical Officer – Cardiology

November 2017 – November 2018

Worked in the cardiology department managing patients with acute and chronic cardiac conditions.

Assisted in ECG interpretation, patient rounds, and emergency cardiac cases.

Monitored patient vitals and provided medication and follow-up care under cardiology consultant supervision.

Medical Officer – General Practice

December 2018 – Till Date

Provided outpatient consultation, diagnosis, and routine medical care.

Delivered health education and preventive care to a wide patient demographic.

Delivered lectures to paramedical students.

Conduct comprehensive outpatient consultations for a diverse range of acute and chronic medical conditions.

Provide preventive healthcare, lifestyle counseling, and continuity of care to improve patient outcomes.
