College Of Physicians & Surgeons Pakistan (CPSP)
- 06/2025-06/2025** **Basic Life Support (BLS)**
College Of Physicians & Surgeons Pakistan (CPSP)

PROJECTS

- 01/2025-Present** **EVALUATING THE DIAGNOSTIC ACCURACY OF RISK-STRATIFICATION OF EMERGENCY DEPARTMENT SUSPECTED SEPSIS (REDS) SCORE FOR PREDICTING IN-HOSPITAL MORTALITY IN SEPSIS PATIENTS**
 This study evaluates the diagnostic accuracy of the Risk-stratification of Emergency Department Suspected Sepsis (RED score) in predicting in-hospital mortality among sepsis patients. The RED score aims to identify high-risk patients and facilitate timely interventions. The study assesses the score's ability to predict mortality, allowing for potential improvements in sepsis care. Accurate risk stratification can enhance patient outcomes and optimize resource allocation. The study's findings may inform clinical decision-making and sepsis management protocols.

OBJECTIVE

Having a deep desire to serve in health care sector. I intend to utilise my talents and potentials, so that the patients as well as I both will be benefited from my services.
