Urdu

About Me

I have worked extensively in the Department of Anesthesia during both my house job and post-house job period, which has given me a strong foundation in airway management and critical care. Currently, I am working in the Medical ICU at SMBBIT Larkana, where I routinely perform lifesaving procedures. I have developed strong hands-on skills in endotracheal intubation, central venous pressure (CVP) line insertion, and other emergency and critical care interventions.
